

Scanned Document Test

This page is an image of printed text with no text layer.

Optical character recognition should find every word here.

The quick brown fox jumps over the lazy dog near the river.

Numbers such as 2024 and 7731 must be read correctly too.

Each line is set in Inter at fourteen points and scanned.

Second Page, Slightly Skewed

This page was turned by one and a half degrees.

Light speckle noise imitates dust on the scanner glass.

A good recognizer straightens the page and still reads it.

Pack my box with five dozen liquor jugs.
